

# SYMBOL KEY:

High End Systems  
SolaFrame Theatre

Altman Spectra Cyc 200  
Mode: 8 Channel 16bit

ETC Source 4 LED  
Series 2 Lustr+  
Mode: Plus Seven

ETC Desire D40  
Mode: Direct

## Typical Unit:

← Unit Number

← Channel

## Tasks:

- 1: Layout the data distribution of this system by marking up this plot
- 2: Include a bill of materials for all equipment needed to complete your system diagram
- 3: Please note the universe and start address of each fixture, the format is Universe/Address (Ex. 3/301)

## Project Notes:

- 1: Power Layout is not in the scope of this project (so don't worry about it)
- 2: All Cable lengths are available in the following increments:  
5, 10, 25, 50, 100 feet
- 3: The console is an Ion XE
- 4: Assume all fixtures have the latest software installed
- 5: Opto Splitters are available with 8 ports each
- 6: Ethernet switches are available with 12 or 24 ports each
- 7: Wireless DMX and/or Ethernet devices are not permitted.
